PROFESSIONAL SUMMARY

Results-driven Data Analyst experienced in analyzing datasets, writing SQL queries, and developing Power BI dashboards to uncover trends and support strategic decisions. Strong ability to translate business requirements into meaningful analytical solutions.

SKILLS

- Microsoft Excel
- Power BI
- CRM Data Analysis
- Data Visualization
- KPI Development
- Process Optimization
- SQL
- Data Analysis & Reporting
- Data Cleaning
- Data Modeling
- Performance Analysis
- Data-Driven Decision Support

EXPERIENCE

Data Analyst Consultant, 09/2025 - 02/2026

Rubixe – Bangalore

- Built Power BI dashboards analyzing \$578K in revenue and \$319K in profit, tracking KPIs such as profit margin, lead time, defect rate, and revenue vs. cost.
- Evaluated supplier/vendor performance and shipping cost vs. Revenue, identifying risks, and improving logistics efficiency and profitability.
- Developed customer behavior dashboards analyzing \$148K in revenue, performing segmentation by age, gender, and payment method, and identifying key segments (Female: \$98K vs. Male: \$50K; Cash: 45%).
- **Tool used:** Power BI, Microsoft Excel, Data Modeling, Data Visualization, and KPI Tracking.

Academic Operations, 07/2024 - 01/2026

Pigeon Education – Bengaluru, India

- Analyzed student engagement data using Excel and SQL to identify trends and improvement areas.
- Performed data cleaning, validation, and EDA to ensure accurate reporting.
- Automated Excel reports to reduce manual effort, and improve efficiency.
- Collaborated with cross-functional teams to present data-driven insights.
- **Tool used:** Excel, SQL, Power BI, EDA, Data Cleaning, KPI, Reporting, and Insights.

Operations Analyst – Digital Finance, 08/2023 - 07/2024

BYJU's - The Learning APP – Bengaluru, India

- Managed account and payment data to ensure the timely resolution of overdue accounts.
- Prepared operational and financial reports to support decision-making.
- Streamlined processes by documenting workflows and training team members.
- Analyzed trends and provided insights to support data-driven decisions.
- Conducted audits to maintain data accuracy, and operational integrity.

PROJECTS

Retail Profitability & Operations Intelligence

- Designed interactive dashboards and BI reports analyzing \$578K revenue and \$319K profit using Power BI, DAX, and Excel.
- Developed and tracked KPIs and performance metrics including profit margin, lead time, defect rate, and revenue vs. cost, providing strategic insights for business decisions.
- Evaluated supplier and vendor performance, identifying high-risk vendors and implementing cost optimization initiatives.
- Performed data-driven analysis of shipping costs vs. revenue to improve logistics efficiency, operational processes, and profitability.

Customer Purchase Behavior Analysis

- Developed interactive Power BI dashboards analyzing \$148K total revenue and \$3K average revenue, with category- and payment-level insights.
- Performed customer segmentation by age, gender, and payment method, identifying high-revenue segments (Female: \$98K vs Male: \$50K).
- Built payment method and age-wise revenue analyses, highlighting Cash (45%) dominance and top revenue-generating age groups.
- Designed DAX measures for KPIs, including revenue aggregation, category contribution, and payment distribution, with drill-down slicers for dynamic reporting.
- Delivered actionable insights to optimize targeted marketing, customer segmentation, and payment channel efficiency.

EDUCATION

Btech: Computer Science Engineering, 2023

Gyan Ganga College of Technology - Jabalpur

8.6 CGPA
